Rising Sign is in 23 Degrees Sagittarius

You are known for being open, frank, outgoing and honest. At times, though, you are also blunt and quite indiscreet. Others have to learn not to take everything you say personally, because you usually do not mean any harm. You appreciate living your life in a straightforward and simple manner -- you dislike social niceties and consider them to be hindrances to real communication. You have lots and lots of energy and tend to become quite restless if you feel confined. You demand the freedom to do as you choose -- you must be self-directed or you feel trapped and anxious. With your abundant energy, you enjoy being outdoors, and you should be attracted to physical exercise or to those forms of sport which can help you burn off some of that excess energy. Very gregarious, you love to socialize -- your innate enthusiasm livens up any gathering.

Sun is in 15 Degrees Aquarius.

You get bored with the status quo and are generally open to new things and ideas. An individualist and a free spirit, your friends are quite important to you as long as they do not try to tie you down by making too many emotional demands on you. Your thoughts are offbeat and you're a bit eccentric, but not always very changeable. As a matter of fact, you can be quite stubborn at times. Very fair-minded when dealing with large groups or broad issues, you are not always emotionally sensitive to the needs of individuals. Extremely objective, with good powers of observation, you would be qualified to study technical and complicated subjects, like science, computers or maybe even astrology.

Moon is in 05 Degrees Capricorn.

You are serious and shy and very uncomfortable in those situations where spontaneous and exuberant emotional reactions seem called for. An achiever, you prefer doing practical, worthwhile things that produce tangible results. You need role models to respect, love and emulate. You tend to feel that you're a failure unless you get an important and highly respected position in life. Don't be so hard on yourself! For you, practical needs always win out over emotional considerations. Remember that you too have the right to comfort, security and love. Dutiful and patient, when you make an emotional commitment, you sign on for the long haul -- your love is long-enduring.

Mercury is in 28 Degrees Aquarius.

You tend to be very opinionated -- you have strongly felt notions about things and are quite vocal about expressing and defending them. Yet you are also an original thinker -- you enjoy shocking others with your offbeat,

original thoughts. You appreciate and need mental and intellectual stimulation. Your judgment is usually fair and impartial -- you can be a good critic because you can remain objective and unemotional about most things.

Venus is in 01 Degrees Aries.

You are a very affectionate person but you hate to be tied down. You are more than willing to be the aggressor in initiating new relationships. Indeed, once you have set your sights on someone, you tend to pursue him or her ardently and passionately. But you do demand your own way in a relationship. Try to give in to your partner's needs and desires once in a while.

Mars is in 23 Degrees Pisces.

Very sensitive and vulnerable, it is difficult for you to assert yourself. At times, you feel quite tired and you will require a lot of sleep in order to maintain your health and your strength. You are at your best when you act without your ego being important. You can be very unselfish and considerate of the needs of others. You get the most satisfaction by giving to others when you expect nothing in return. Beware of a tendency to want always to work behind the scenes or to become overly deceptive by doing things behind others' backs.

Jupiter is in 17 Degrees Virgo.

You feel most expansive and at ease with yourself when you are doing something that you consider to be practical or useful. You enjoy being dutiful and carrying out responsibilities. You gladly take on the little tasks that others seem to want to avoid. At times, you carry things to extremes and feel guilty anytime you do something that you consider to be self-indulgent. While it is appropriate for you to demand little for yourself in life, try to loosen up once in a while -- go out on a fling and enjoy yourself!

Saturn is in 23 Degrees Virgo.

Your life must be orderly and practical and full of known and familiar routines in order for you to feel comfortable with yourself. Be careful, however, not to let "order" become the be-all and end-all of your life, or you may become cold, crass and unfeeling. Doing useful, practical things boosts your self-esteem. Abstract concepts and reasoning seem frivolous and a waste of time to you. You are very critical of yourself (and others), indeed at times quite self-deprecating. Try to relax a bit and allow yourself the freedom to fail once in a while. However, you probably won't fail very often because you are such a perfectionist.

Uranus is in 04 Degrees Pisces.

You, and most of your peers, are extremely idealistic and want to change society by completely reorienting its highest goals and aspirations. Just be careful to make sure that your new goal structures are properly grounded in reality so that they have a chance of being accepted by the majority.

Neptune is in 12 Degrees Leo.

You idealize aggressive behavior and the need to be individualistic. But, because you are also attracted to selflessness (the denial of the ego) as a worthy life goal, you tend to have confused expectations about why self-expression is so valuable.

N. Node is in 00 Degrees Scorpio.

You have a special aptitude for working by yourself, or with a like-minded group of dedicated individuals. Once you've committed yourself to a person or group or project, your loyalty and devotion are total until the group's goals have been realized. Not at all gregarious by nature, you're uncomfortable around strangers, greatly preferring to be in known and familiar situations. Others may regard you as shy or eccentric, but those who know you well are aware of the intense loyalty that you have to your friends.
