### Rising Sign is in 02 Degrees Aquarius

You like new ideas and concepts, but you prefer to discover them by yourself -- it is not easy for others to convert you to anything. You form your own opinions, but once you do form them, you then want to convince everyone else that they are correct. Try to be more tolerant of the opinions of others. You have a deep and abiding interest in science, mathematics, and the great social problems of the day. Very sympathetic toward the downtrodden, equality is your battle cry! You demand that those in authority be fair to all. You are an intellectual -- emotions and emotional people are difficult for you to understand. You are known for being calm, cool, detached and objective.

### Sun is in 16 Degrees Aries.

By nature, you are very energetic and high-spirited. You are fiercely independent -- you must be first in everything you do, and you enjoy taking risks. You are the one who will rush in where angels fear to tread. Quite brilliant at initiating new projects, you are terrible at following them through to completion. You are an enthusiastic leader but you tend to be a reluctant follower. Often you are quick to anger, but you usually recover just as fast, regretting later things you said when you were upset. One of your best traits is that you are simple and direct, blunt and honest -- just be careful you do not hurt others' feelings. Your need to be competitive at all costs may provoke resistance from others, but, as long as you maintain your usual Sunny good humor, this should not prove to be a major problem for you.

### Moon is in 22 Degrees Capricorn.

You are serious and shy and very uncomfortable in those situations where spontaneous and exuberant emotional reactions seem called for. An achiever, you prefer doing practical, worthwhile things that produce tangible results. You need role models to respect, love and emulate. You tend to feel that you're a failure unless you get an important and highly respected position in life. Don't be so hard on yourself! For you, practical needs always win out over emotional considerations. Remember that you too have the right to comfort, security and love. Dutiful and patient, when you make an emotional commitment, you sign on for the long haul -- your love is long-enduring.

### Mercury is in 24 Degrees Pisces.

Your ideas and thought processes do not come to you in an orderly, logical fashion. Instead, you think with your

feelings or with images produced by your rich and fertile imagination. A very subjective person, your dreams and fantasies are very important to you. You trust your intuitions and tend to reject ideas that are based solely on logic. Very impressionable, you are sensitive to the moods and emotional states of those with whom you come into contact.

**Venus is in 06 Degrees Pisces.**

You have a dreamy, fanciful, romantic nature and a very creative imagination. Indeed, at times, your private fantasies are more appealing than the reality around you and it is difficult for you to leave them. You tend to be unselfish and giving in relationships and are extremely sensitive of the needs of others. Be very sure that those you help are worthy of your devotion and are not merely taking advantage of your innocence and naivete.

**Mars is in 22 Degrees Pisces.**

Very sensitive and vulnerable, it is difficult for you to assert yourself. At times, you feel quite tired and you will require a lot of sleep in order to maintain your health and your strength. You are at your best when you act without your ego being important. You can be very unselfish and considerate of the needs of others. You get the most satisfaction by giving to others when you expect nothing in return. Beware of a tendency to want always to work behind the scenes or to become overly deceptive by doing things behind others' backs.

**Jupiter is in 14 Degrees Pisces.**

You are at your best when you give of yourself and what you have -- try to avoid being a martyr about it, though. You're a true idealist, but you must learn not to be upset when life does not cooperate with the way you think things should be. Very concerned with spiritual truth and growth, when you practice what you preach, you make an excellent role model for others. You are so devoted to altruistic ventures and concerns that you tire easily at times. It then becomes necessary for you to go off by yourself to recharge your batteries.

**Saturn is in 26 Degrees Gemini.**

You are such a clear thinker and speaker, with a logical orderly mind, that you are repulsed by abstract, intangible or unorganized thoughts or ideas. But you tend to get uptight about speaking in public because you are afraid to be wrong. Remember that the best way to learn is by making mistakes. Also, you will be so carefully prepared that you probably will not make many mistakes anyway. To be interesting to you, ideas have to be practical and useful.

**Uranus is in 14 Degrees Aquarius.**

You, and most of your peer group as well, are reformers at heart. You want to make positive changes that will benefit society as a whole. You are willing to devote your time and energy to see that they come about, especially if the proper group support and combined purpose of will can be found. Be careful that your devotion to group goals does not produce too much friction or neglect in your own interpersonal one-on-one relationships.

**Neptune is in 27 Degrees Cancer.**

You, and your entire generation, tend to overidealize the home, the past and other traditional values. This fosters isolationism and protectionism in the political sense. One's zeal to bring one's own racial or cultural heritage to the forefront may become subject to the same excesses as those of the ultranationalist movements of the 1920's through the 1940's, unless the rights of individuals and dissidents are fiercely protected as well.

**Pluto is in 00 Degrees Cancer.**

For your entire generation, this is a period of profound global changes, especially in the nature and shape of family structures. In one such period, in the Twentieth Century, major calamities such as depression and world war accelerated the replacement of the old village-oriented extended family by modern cosmopolitan living.

**N. Node is in 25 Degrees Aquarius.**

As long as someone else (or a group or organization) appeals to your intellectual sensibilities, you'll try to ally yourself with them in some way. You may find that you always seem to get involved with many wide-ranging groups -- so much so that you find it difficult to fit them all into your busy schedule. Your many friends and acquaintances provide you with needed stimulation. You're loyal and fair-minded -- you try to spend time equally with all your friends, never concentrating on just one or two for any length of time. Although probably quite conservative yourself, you're attracted to those who are a bit offbeat or eccentric -- you enjoy watching their minds work.
