Rising Sign is in 15 Degrees Leo

You love to be the center of attention and you want to appear strong, confident and dominant. You are very proud of yourself, sometimes quite vain even. When all around you are bedraggled and falling apart, you look like a million bucks! Very dignified and honorable, you enjoy the power and privilege, but not the responsibilities, that come with leadership. You are very idealistic but can also be quite stubborn. Others impress you only if they have integrity (but wealth, power and influence can also turn your head). You prefer rich, elegant surroundings and possessions, and will try to acquire them as your budget allows. Physically, you are very impressive -- at your best you have a regal, charismatic demeanor and bearing. Try not to be such a showoff!

Sun is in 20 Degrees Taurus.

You are known for being patient, slow moving and careful -- you love to prolong and savor enjoyable times. You appreciate and need comfort, ease and warm surroundings. Be careful of a tendency to become placid and self-satisfied and to overeat (especially sweets). You require strenuous situations in order to grow and mature properly, even though you try to avoid them. Affectionate, even-tempered and slow to anger -- when you do become emotionally upset, you are also slow to forgive and time must pass before your calm returns. You demand real results from any situation -- abstractions are very difficult for you to comprehend. Very artistic, your hands love to mold and shape things. You portray an earthy, physical sexiness that others find quite seductive.

Moon is in 18 Degrees Taurus.

Warmth, comfort, security and familiar surroundings are necessary for you to feel at ease. Very loving and affectionate, you prefer a steady, patterned way of life. Patient, calm and steadfast, you are not easily upset. Others look to you for support. You tend to be a slow starter and a slow mover -- others may try to rush you, but they will never succeed. Emotionally, you are quite stubborn -- your attitudes about people and things were firmly set in your youth and will change very little as an adult. You are also very cautious and conservative about spending money. It is not that you are selfish, you just need to feel secure. Beware of a tendency to become overly complacent and too self-satisfied.

Mercury is in 06 Degrees Taurus.

A slow and careful thinker, you like to present ideas visually and concretely. Abstractions are quite difficult for you to understand. For you, everything must be practical and useful in order to merit your attention. You are a perfectionist -- you enjoy being skillful enough to handle the dexterity required of fine craftsmanship. Cautious and conservative in your thinking, you are very slow to change your opinions. You are more apt to respond to an appeal to your feelings than to an appeal to logic or reason.

Venus is in 17 Degrees Aries.

You are a very affectionate person but you hate to be tied down. You are more than willing to be the aggressor in initiating new relationships. Indeed, once you have set your sights on someone, you tend to pursue him or her ardently and passionately. But you do demand your own way in a relationship. Try to give in to your partner's needs and desires once in a while.

Mars is in 15 Degrees Capricorn.

Extremely ambitious, you are willing to work very hard to reach the goals you have set for yourself. Very practical, cautious and conservative, you demand tangible results for your efforts. You need to excel in whatever you do, and you have the required sense of responsibility, dedication and self-discipline to bring it about. Beware of your tendency to judge others only by their degree of status and prestige, or by how well they will be able to advance you in your climb to the top.

Jupiter is in 08 Degrees Cancer.

You must be emotionally secure in order to grow and develop. You are happiest when your family and community support and nourish you and boost your morale. Whether your childhood experiences of love and emotional dependability were positive or negative will set the tone for your emotional growth and stability as an adult. When you feel at ease with yourself, you are able to offer assistance to those who need a helping hand.

Saturn is in 24 Degrees Pisces.

Your tendency to think that your life is out of control is based on an unreasonable fear, probably connected with an unfortunate experience with the person who filled the father figure role in your early life. Learn to take responsibility here and now for your own life. Try to stop having unrealistic expectations about guide figures. Remember that they are merely human, with all the same faults and self-doubts that you have. When you get confused or uncertain, try to simplify your lifestyle -- things will then become easier to bear.

Uranus is in 12 Degrees Capricorn.

You, and your peer group as well, seek out practical solutions to a changing society's attitudes to customs, traditions and authority structures. Your logical and orderly manner of dealing with these matters will result in permanent and carefully planned, but sweeping, reforms.

N. Node is in 25 Degrees Cancer.

You genuinely enjoy meeting other people, but you're at your best if you can do so from the comfort of your own home. You prefer others to come to you and tend to feel uncomfortable about leaving your home or neighborhood for any extended period of time. Those who do come in contact with you are struck by your caring and obliging nature -- you really make them feel at home. You form the closest ties, however, with members of your immediate family, especially your parents and children. You're at your best attending or organizing family reunions!
