Rising Sign is in 22 Degrees Libra

Very attractive and popular, your charm helps you to get your own way and prevents others from getting angry with you. "Peace and harmony at all costs" is your battle cry. You always try to ameliorate or to cosmetically hide any physical ugliness or any angry feelings between people. Flashy, but not gaudy, you prefer to dress elegantly. You generally have good taste in music, art and literature. Beware of the tendency to compromise yourself in your attempt to be agreeable at all times. A bit of a social butterfly, at times you can be vain and lazy. For the most part, however, you are gracious and affectionate, and your refined and aristocratic demeanor serves as a role model to others.

Sun is in 23 Degrees Sagittarius.

Very fun-loving, spirited and energetic, you have a huge reservoir of physical energy within you that needs to be released. As such, exercise or sports are very important to you. Quite gregarious, you enjoy being with other people, but you tend to avoid emotionally restrictive or intimate relationships. Constantly curious about the broader issues of life, you may at times be quite careless and sloppy about details -- you tend to leap to conclusions before all the facts are in. An avid reader, you are totally enthusiastic about any given subject should it interest you. You are known for being idealistic, generous, sociable, cheerful and very positive!

Moon is in 12 Degrees Gemini.

Restless in the extreme, you are easily bored because of your short attention span. Your emotions change rapidly and you love to talk about your feelings. Generally, you have good judgment -- your intellect controls your emotions and you do not overreact emotionally to things. A good jack-of-all-trades, you have many-sided interests and enjoy reasoning things through. With your mental agility and need for physical mobility, you are attracted to traveling and learning about other peoples and cultures. You have vivid powers of emotional self-expression - - you can be a nonstop talker. You love to share your ideas with anyone who will listen.

Mercury is in 05 Degrees Sagittarius.

Your mind is very curious and inquisitive, always seeking information on a wide variety of topics. The broader the subject matter (philosophy, science, religion, metaphysics), the more it will appeal to you. You prefer to deal with abstractions -- the small but important details associated with any subject tend to slip your grasp. You are known for being blunt, honest and truthful.

Venus is in 16 Degrees Capricorn.

You tend to keep your feelings under control -- emotions are only released in serious or important situations. You are distrustful of others whose behavior could be judged excessive or immoderate. As such, you prefer to relate only to those who are older than you or to those whose position is such that respect and duty are more important for both of you than passion or emotional response. Be careful, however, of relationships that are merely based on practicality or utility or you will ultimately be lonely.

Mars is in 01 Degrees Capricorn.

Extremely ambitious, you are willing to work very hard to reach the goals you have set for yourself. Very practical, cautious and conservative, you demand tangible results for your efforts. You need to excel in whatever you do, and you have the required sense of responsibility, dedication and self-discipline to bring it about. Beware of your tendency to judge others only by their degree of status and prestige, or by how well they will be able to advance you in your climb to the top.

Jupiter is in 27 Degrees Scorpio.

You love to dig deep beneath surface appearances in order to find out what is really happening. A persistent researcher, you are very interested in the psychology of any situation. You tend to become overwhelmed by the complexity of what you uncover, however, and that makes you a bit gun-shy about explaining things to others. But you must learn to try to communicate as best you can because what you know is really very valuable to others.

Saturn is in 25 Degrees Sagittarius.

Basically quite conservative, you respect traditional authority figures and are very thankful and supportive of the laws and institutions which govern your life. You learn and accept new ideas only after having very thoroughly examined them. Ideals and abstract concepts are important to you only if they can be used in some practical fashion. You are so practical and so orderly that you have natural skills in planning, administrating and organizing.

Uranus is in 09 Degrees Sagittarius.

You, and most of your peers, have the tendency to think that all ideas, customs and traditions from the past are outmoded and irrelevant. You are attracted to radically new ideas, philosophies and religions that will, hopefully, cause sweeping changes throughout the world.

Neptune is in 25 Degrees Gemini.

You, and your entire generation, are attracted to various types of mystical and abstract literature and philosophy. You are interested in broadening your intellectual and spiritual horizons. But beware of a tendency toward mere dabbling -- there may come a time when you will have to take a stand. The desire to immerse yourself in metaphysical speculations may stem from a fear of involvement in the gritty necessities of the mundane world.

N. Node is in 20 Degrees Sagittarius.

You will probably have many different contacts and acquaintances throughout your life. You're quite gregarious by nature and your natural curiosity about others lets you take the lead in forming new relationships. You'll form close ties with those who have similarly idealistic ideas -- especially those who can stimulate you intellectually in your chosen field of interest. Your enthusiasm for learning new things may also cause you to do quite a bit of traveling. Because you probably will have many wide-ranging interests and concerns, you most likely will have contacts and connections in various parts of the country (or world).
