**Errol Flynn June 20 1909 2:25 AM Hobart, Tasmania - AUSTRALIA**

**Rising Sign is in 23 Degrees Aries**

You are a free spirit and you must be first at everything you do. Very energetic, self-assertive and active, things must be done your way. Even though you may feel calm and serene on the inside, you certainly do not act that way. You want to do everything full-tilt, 100 miles per hour! A great competitor, but a poor cooperater -- you must learn how to lose more gracefully. Very self-confident, ambitious and passionate, you radiate positive energy. You are blunt and direct, but at times unfeeling and tactless, especially if anyone offers you any resistance. You fight for your beliefs, but your tendency to act first and think later often causes you much grief.

**Sun is in 27 Degrees Gemini.**

You have a quick, bright and agile mind, but an extremely short attention span. You love the external, kaleidoscopic aspects of life, but you tend to avoid (and even fear) deep, close emotional involvements. As such, you seem to enjoy travel and sightseeing and generally being "on-the-go." You get quite listless when things around you become static and dull, but your excitement returns whenever you are stimulated by a new idea. Chatty, inquisitive and quite playful, you enjoy practical jokes and games in general. Your moods change quickly and often -- you are very restless and constantly in motion. You are known for your versatility and adaptability. Your vivaciousness enlivens any social gathering.

**Moon is in 18 Degrees Cancer.**

For the most part, you are very strong and secure emotionally. You intuitively know what to do to make others feel comfortable, loved, accepted and needed. You naturally enjoy feeding and taking care of others. Be careful that your mothering does not turn into smothering. At times, you tend to feel that those to whom you are attached can never do anything without your assistance and support. Extremely sensitive by nature, it hurts you deeply whenever anyone criticizes you. You have an almost desperate need to be loved and wanted and needed by everyone with whom you come into contact, and you go out of your way to be accommodating to them.

**Mercury is in 20 Degrees Gemini.**

Your mind is active, quick and agile. You are very restless and you get bored easily. Unless you receive constant mental stimulation, you become extremely nervous and begin to act in an unstable manner. You are probably a good student because of your natural inquisitiveness. You also love to travel. Your learning tends to be superficial, though, because you have a relatively short attention span. Try to develop the mental discipline to finish what you start. Also, you tend to talk on at times seemingly just to fill space -- make sure that your conversation has some substance to it or others will start avoiding you.

**Venus is in 11 Degrees Cancer.**

You like to be very close to other people. You need emotional support yourself and are willing to give it to others. When you feel unloved and insecure, you can be very jealous and possessive. You are not interested in casual or superficial relationships -- only deep emotional involvements interest you. Your faithful devotion is one of your greatest gifts, but be careful not to become too dependent on others. Learn to stand on your own two feet and demand your own rights once in a while.

**Mars is in 14 Degrees Pisces.**

Very sensitive and vulnerable, it is difficult for you to assert yourself. At times, you feel quite tired and you will require a lot of sleep in order to maintain your health and your strength. You are at your best when you act without your ego being important. You can be very unselfish and considerate of the needs of others. You get the most satisfaction by giving to others when you expect nothing in return. Beware of a tendency to want always to work behind the scenes or to become overly deceptive by doing things behind others' backs.

**Jupiter is in 07 Degrees Virgo.**

You feel most expansive and at ease with yourself when you are doing something that you consider to be practical or useful. You enjoy being dutiful and carrying out responsibilities. You gladly take on the little tasks that others seem to want to avoid. At times, you carry things to extremes and feel guilty anytime you do something that you consider to be self-indulgent. While it is appropriate for you to demand little for yourself in life, try to loosen up once in a while -- go out on a fling and enjoy yourself!

**Saturn is in 21 Degrees Aries.**

You are aloof, independent and standoffish. This is mainly due to your fear that others might inhibit or restrict you and, quite frankly, you feel that you can govern your life by your own standards. Be careful not to associate with those who are overly critical of you or you will withdraw so deeply into your shell that you will become very lonely. You have the ability to stand on your own two feet and to make up your own mind -- albeit very carefully and cautiously. But you are known for your circumspection and therefore are respected and admired.

**Uranus is in 19 Degrees Capricorn.**

You, and your peer group as well, seek out practical solutions to a changing society's attitudes to customs, traditions and authority structures. Your logical and orderly manner of dealing with these matters will result in permanent and carefully planned, but sweeping, reforms.

**N. Node is in 16 Degrees Gemini.**

You will consciously seek out many different contacts with others throughout your life. Many of these will be of very short duration, not necessarily because you're fickle, but just because you always seem to be more excited by the prospect of meeting someone new rather than prolonging your present relationships. At any rate, you will learn something new from almost everyone you come across -- intellectual stimulation is what you crave from others. You will be well known to neighbors and relatives, partly due to your curiosity about what they're doing -- you delight in keeping up-to-date about the latest news (and gossip).
