Rising Sign is in 29 Degrees Scorpio

You tend to be quiet, reserved, secretive and, at times, quite difficult to understand. Others notice your deep emotions and feelings and wonder how to draw you out. Stubborn and tough, you fight for any position you believe in. You are very resourceful and formidable when you become angered or upset about something. You enjoy living life at the cutting edge -- for you life must be experienced intensely and totally. Quite courageous, you are willing to take calculated risks. Easily hurt by others, you often strike back with bitter sarcasm. Sensitive and curious, you are concerned with the deeper mysteries of human psychology. Once you have become interested in any subject, you pursue it with total fanaticism.

Sun is in 06 Degrees Cancer.

Very emotional and sensitive, you have an intuitive understanding of the "vibes" around you. You tend to be quite generous, giving, loving and caring, but only when your own needs for emotional support, love and security have been met. If they are not met, you tend to withdraw into yourself and become very insecure and selfish. Your home and family (especially your mother or the person who played that role for you early on) represent security for you and thus assume a larger-than-life importance. Very sentimental, you have vivid and long-enduring memories of the past. No matter how well adjusted you are, you will always need a secret quiet place of your own in order to feel at peace. Feeding others can give you great pleasure you would enjoy being part of a large family.

Moon is in 18 Degrees Pisces.

You have strong feelings and are extremely sensitive. It would help if you had a thicker skin -- you tend to react emotionally to every situation you come across. Kind, gentle and considerate of the feelings of others, you are good at taking care of the sick, wounded and helpless. But you tend to absorb the energy of others -- so avoid those who are always negative. You have a rich, creative and lively imagination, but you should be careful not to spend all your time daydreaming. Very intuitive, you have good ESP and may be quite clairvoyant or psychic. Remember that you too have the right to get what you want from life. If you are always defensive and kowtowing to others, people will take advantage of you and exploit you.

Mercury is in 00 Degrees Leo.

You are usually quite convinced that your own ideas are correct and you enjoy persuading others that they are. At times, you are very stubborn and proud of your beliefs and principles, and you get very defensive when they are challenged. You appreciate truth and honesty -- you practice it yourself and expect it in others. You have

good talent for organizing, directing and planning. You delight in being asked for your advice and counsel.

Venus is in 02 Degrees Cancer.

You like to be very close to other people. You need emotional support yourself and are willing to give it to others. When you feel unloved and insecure, you can be very jealous and possessive. You are not interested in casual or superficial relationships -- only deep emotional involvements interest you. Your faithful devotion is one of your greatest gifts, but be careful not to become too dependent on others. Learn to stand on your own two feet and demand your own rights once in a while.

Mars is in 15 Degrees Leo.

You are a very proud person. Strong, bold, courageous and self-possessed, you love to be the one to initiate significant actions. When people expect a lot of you, you respond positively and will work hard in order to maintain their respect. But when your dignity or pride is threatened, you tend to become sarcastic, arrogant and domineering. Try not to take any challenge or resistance that you meet as a personal affront. You are very stubborn about your right to live your life according to your own principles.

Jupiter is in 16 Degrees Aries.

The way that you grow and develop is by being an uncompromising individualist. You have a great need to be yourself and to explore your latent talents and abilities. Do not be afraid to let yourself go and develop self-confidence and pride in your accomplishments. But try not to become so self-centered that you ignore the needs of others. Also, you may have to build up your self-discipline in order to focus your energies properly.

Saturn is in 27 Degrees Aries.

You are aloof, independent and standoffish. This is mainly due to your fear that others might inhibit or restrict you and, quite frankly, you feel that you can govern your life by your own standards. Be careful not to associate with those who are overly critical of you or you will withdraw so deeply into your shell that you will become very lonely. You have the ability to stand on your own two feet and to make up your own mind -- albeit very carefully and cautiously. But you are known for your circumspection and therefore are respected and admired.

Uranus is in 05 Degrees Virgo.

You, and all your peers, will be known for the degree of intensity with which you dislike normal everyday routines and chores. You will go out of your way to invent innovative, unique and timesaving ways to perform the various mundane routines and duties of living. You will be attracted to all manner of practical and useful gadgets -- anything that will make your daily life more exciting.

N. Node is in 06 Degrees Capricorn.

You rarely get involved closely with anyone unless he or she has something specific and practical to offer you. You tend to be "all business" when it comes to dealing with others. You're usually so intently focused on a particular goal that you rarely have time for social niceties or casual fellowship. But you can definitely be counted on by others to get things done. When you say that you'll do something, you do it. As such, you're a valuable member of any team situation and will probably rise to a position of leadership within the group. Your trustworthiness and sense of responsibility are unquestioned. But do try to avoid the temptation to "use" others to reach your goals -- they might come to resent you.
