## **Rising Sign is in 29 Degrees Scorpio**

You tend to be quiet, reserved, secretive and, at times, quite difficult to understand. Others notice your deep emotions and feelings and wonder how to draw you out. Stubborn and tough, you fight for any position you believe in. You are very resourceful and formidable when you become angered or upset about something. You enjoy living life at the cutting edge -- for you life must be experienced intensely and totally. Quite courageous, you are willing to take calculated risks. Easily hurt by others, you often strike back with bitter sarcasm. Sensitive and curious, you are concerned with the deeper mysteries of human psychology. Once you have become interested in any subject, you pursue it with total fanaticism.

## **Sun is in 27 Degrees Aries**

By nature, you are very energetic and high-spirited. You are fiercely independent -- you must be first in everything you do, and you enjoy taking risks. You are the one who will rush in where angels fear to tread. Quite brilliant at initiating new projects, you are terrible at following them through to completion. You are an enthusiastic leader but you tend to be a reluctant follower. Often you are quick to anger, but you usually recover just as fast, regretting later things you said when you were upset. One of your best traits is that you are simple and direct, blunt and honest -- just be careful you do not hurt others' feelings. Your need to be competitive at all costs may provoke resistance from others, but, as long as you maintain your usual Sunny good humor, this should not prove to be a major problem for you.

## **Moon is in 10 Degrees Scorpio**

Your feelings are very intense, never superficial. You tend to be either very angry or very sad or completely and totally happy. Your moods are deep, extreme and not always completely understood by yourself or by those with whom you have to deal. Emotionally, you tend to prefer to live at the cutting edge of life, pushing your reactions to the ultimate extremes, even if the results are dangerous or upsetting. You are easily jealous and very suspicious -- you require a great deal of emotional reassurance. A good detective, you are very curious about deep and mysterious things, especially human nature and motivations. Be careful not to be ruthless, tactless or too overly frank or you will meet with much resistance from others.

## **Mercury is in 17 Degrees Aries**

Very quick-witted, you are known for being an independent thinker. You love to debate and argue, and are excellent at repartee and battles of wits. At times, however, you act too fast on hastily formed opinions and thus waste

a lot of energy defending your rash and sometimes incorrect conclusions. It is perfectly acceptable for you to defend your beliefs with your usual vigor, but try not to take the opinions of others as personal insults.

#### **Venus is in 18 Degrees Taurus**

You are known to be a warm and affectionate person, and you tend to form long-lasting attachments. The reverse of this is that you can also be quite possessive once you have made a commitment. The beauty, luxury and comfort of your surroundings are important to you and you will devote much time and energy to making your home just right. Beware of your tendency toward self-indulgence, especially with respect to eating incorrectly. You also need outside stimuli to get you in gear. When things come too easily for you, you can be lazy and indolent.

#### **Mars is in 13 Degrees Taurus**

Careful, slow and thorough about all that you do, at times you are also willful and stubborn when others try to alter your course. You are definitely not a quitter -- you will work long and hard to get what you want. Your possessions are very important to you. One of your continuing problems is that you tend to regard the significant people in your life much the same way as you do your possessions -- you become overly attached and much too jealous. You repress your anger when you get upset and that is not healthy. Try to learn to show your anger immediately in order to avoid painful explosions later.

#### **Jupiter is in 08 Degrees Capricorn**

You tend to feel that the only results that are worthwhile are the results that are concrete and demonstrable. You distrust abstract solutions and appreciate measurable achievements. An excellent organizer and planner, you are optimistic as well as practical and realistic about what can and what cannot happen. Very responsible, you consider it a personal weakness to be wrong about anything. This makes you appropriately cautious. You are very efficient but you tend to be cool and detached.

#### **Saturn is in 13 Degrees Leo**

Extremely self-reliant, you set very high standards of conduct and decorum for yourself, and you expect others with whom you associate to be that way, too. It is important that you had a strong father figure or role model early in life to mold your life course and direction. When you feel that those around you are unworthy or behaving badly, you withdraw, preferring solitude rather than associating with those who might besmirch your reputation.

#### **Uranus is in 19 Degrees Libra**

You, as well as your entire peer group, have a very free, unstable and unconventional approach to relationships and emotional commitments. You will be attracted to experiments in marriage and shared lifestyles. Personal freedom is more important to you than entangling emotional bonds. In the realm of art and aesthetics, you are attracted to the bizarre, shocking and unusual.

#### **Neptune is in 00 Degrees Gemini**

You, and your entire generation, are attracted to various types of mystical and abstract literature and philosophy. You are interested in broadening your intellectual and spiritual horizons. But beware of a tendency toward mere dabbling -- there may come a time when you will have to take a stand. The desire to immerse yourself in metaphysical speculations may stem from a fear of involvement in the gritty necessities of the mundane world.

#### **N. Node is in 15 Degrees Cancer**

You genuinely enjoy meeting other people, but you're at your best if you can do so from the comfort of your own home. You prefer others to come to you and tend to feel uncomfortable about leaving your home or neighborhood for any extended period of time. Those who do come in contact with you are struck by your caring and obliging nature -- you really make them feel at home. You form the closest ties, however, with members of your immediate family, especially your parents and children. You're at your best attending or organizing family reunions!
