Rising Sign is in 09 Degrees Sagittarius

You are known for being open, frank, outgoing and honest. At times, though, you are also blunt and quite indiscreet. Others have to learn not to take everything you say personally, because you usually do not mean any harm. You appreciate living your life in a straightforward and simple manner -- you dislike social niceties and consider them to be hindrances to real communication. You have lots and lots of energy and tend to become quite restless if you feel confined. You demand the freedom to do as you choose -- you must be self-directed or you feel trapped and anxious. With your abundant energy, you enjoy being outdoors, and you should be attracted to physical exercise or to those forms of sport which can help you burn off some of that excess energy. Very gregarious, you love to socialize -- your innate enthusiasm livens up any gathering.

Sun is in 28 Degrees Libra.

Very sociable, you enjoy being with others and definitely prefer not to be alone. Warm and affectionate, you go out of your way to make others like you. You despise ugliness, for you being surrounded by beauty and harmony is a necessity of life. You prefer fine clothing, an attractive home and pleasant surroundings wherever you are. Your refined tastes apply to music and to art as well. At times, you are very indecisive you waver and falter when forced to make a choice because you have the ability to see both sides of any question. The positive part of this is that you are very fair-minded and can be trusted to settle disputes. Your greatest challenge is to take any one-on-one encounter and make the most of it.

Moon is in 27 Degrees Aquarius.

Very freedom-oriented, you must always be able to do what you wish, no matter what. You become stubborn and recalcitrant when others try to force you into a mold. You are a true democrat -- you are not a follower, but you enjoy being with those who are like-minded. You appreciate emotional self-control -- you practice it yourself and you look for it in others. You solve problems, including emotional ones, with your brains and intellect, not your feelings. Try to be tolerant of those who have powerful and obvious emotional responses -- not everyone is as objective, cool, dispassionate and detached as you are.

Mercury is in 22 Degrees Scorpio.

You are a born investigator. You are fascinated by secrets and mysteries and unanswered questions of any kind. When you become upset or angry, your emotional reactions are overpowering -- reason and logic disappear in

an uncontrollable passionate outburst. You tend to keep your thoughts secret and bottled up and this makes others regard you with suspicion. It is not that you are trying purposely to be evasive, it is just that you would rather not deal with the explosions and hassles that often occur when you reveal your true feelings and opinions. Your sense of humor tends toward sarcasm and irony.

Venus is in 28 Degrees Scorpio.

Your feelings about others are deep, powerful, intense and complex. When you like someone, you do so totally and obsessively if you do not like someone, they do not exist. Your faithfulness and loyalty to your lover is unquestioned, indeed at times it is too much so -- you get so possessive that you almost smother your partner. At times, your feelings are kept deep within you and, because they are so complex and intense, they frighten you -- this is the way that you try to ignore them. But the more you try to do this, the more explosive things get when you eventually do express them.

Mars is in 02 Degrees Capricorn.

Extremely ambitious, you are willing to work very hard to reach the goals you have set for yourself. Very practical, cautious and conservative, you demand tangible results for your efforts. You need to excel in whatever you do, and you have the required sense of responsibility, dedication and self-discipline to bring it about. Beware of your tendency to judge others only by their degree of status and prestige, or by how well they will be able to advance you in your climb to the top.

Jupiter is in 11 Degrees Virgo.

You feel most expansive and at ease with yourself when you are doing something that you consider to be practical or useful. You enjoy being dutiful and carrying out responsibilities. You gladly take on the little tasks that others seem to want to avoid. At times, you carry things to extremes and feel guilty anytime you do something that you consider to be self-indulgent. While it is appropriate for you to demand little for yourself in life, try to loosen up once in a while -- go out on a fling and enjoy yourself!

Saturn is in 20 Degrees Virgo.

Your life must be orderly and practical and full of known and familiar routines in order for you to feel comfortable with yourself. Be careful, however, not to let "order" become the be-all and end-all of your life, or you may become cold, crass and unfeeling. Doing useful, practical things boosts your self-esteem. Abstract concepts and reasoning seem frivolous and a waste of time to you. You are very critical of yourself (and others), indeed at times quite self-deprecating. Try to relax a bit and allow yourself the freedom to fail once in a while. However, you probably won't fail very often because you are such a perfectionist.

Uranus is in 01 Degrees Pisces.

You, and most of your peers, are extremely idealistic and want to change society by completely reorienting its highest religious goals and aspirations. Just be careful to make sure that your new goal structures are properly grounded in reality so that they have a chance of being accepted by the majority.

Neptune is in 13 Degrees Leo.

You, and your entire generation, idealize aggressive behavior and the need to be individualistic. But, because you are also attracted to selflessness (the denial of the ego) as a worthy life goal, you tend to have confused expectations about why self-expression is so valuable.

Pluto is in 08 Degrees Cancer.

For your entire generation, this is a period of profound global changes, especially in the nature and shape of family structures. In one such period, in the Twentieth Century, major calamities such as depression and world war accelerated the replacement of the old village-oriented extended family by modern cosmopolitan living.

N. Node is in 06 Degrees Scorpio.

You have a special aptitude for working by yourself, or with a like-minded group of dedicated individuals. Once you've committed yourself to a person or group or project, your loyalty and devotion are total until the group's goals have been realized. Not at all gregarious by nature, you're uncomfortable around strangers, greatly preferring to be in known and familiar situations. Others may regard you as shy or eccentric, but those who know you well are aware of the intense loyalty that you have to your friends.
