Rising Sign is in 06 Degrees Capricorn

You are practical and reserved but very ambitious. An achiever and a hard worker, you respect success. Older looking and very serious as a youth, things lighten up and you relax more as you mature. You have a serious view of the world as being a difficult place to be in. Very envious of those who seem to have an easier life than you have, relaxation and play do not come easily. It is important that you had abundant parental support as a child so that you do not feel lonely and isolated as an adult. Generally, you have a good, earthy sense of humor that can carry you through when times really do get tough. You are purposeful, self-willed, industrious, realistic and responsible.

Sun is in 01 Degrees Virgo.

Extremely careful and cautious by nature, you value neatness and order above all else. You rigorously practice very high standards of living and conduct and you demand the same of everyone with whom you come into contact. At times, you are so supercritical that you are merely nit-picky. You are very good at practical skills and quite handy with tools of all kinds. You are also greatly concerned with hygiene, cleanliness and personal health problems. Very likely your health is much better than you think it is -- don't worry so much! Extremely methodical and analytical, you are a perfectionist -- this makes you the perfect person to carry out highly detailed, precise operations. But, at times, you pay so much attention to details that you lose sight of the larger issues.

Moon is in 23 Degrees Virgo.

You tend to be serious-minded but cheerful for the most part. You need tasks that engage both your mind and your hands. A careful worker, you enjoy making things. You are neat and orderly, and are very concerned with good health habits. Fastidious to the extreme, you cannot tolerate messes and will immediately clean them up. Reserved, shy, and very self-critical, you tend to be very hard on yourself. You usually will go out of your way to be helpful and useful to others. Practical, reliable, efficient and conservative, at times you are a bit of a prude. You are known to lead a simple, uncomplicated, frugal, methodical and unemotional lifestyle. You are devoted and caring to those you love.

Mercury is in 29 Degrees Virgo.

Very thorough and efficient, you pay attention to the minor but important details of any project. You are a careful thinker who can learn complicated, intricate techniques. You are attracted to practical, useful skills and are probably good at working with your hands. You are very critical of yourself and others, sometimes too much so, and you get the reputation of being a nag or of being nit-picky. Your first reaction to any situation is to try to organize, classify and analyze everything!

Venus is in 17 Degrees Libra.

A very friendly and outgoing person, you hate to be alone. Beware of a continuing tendency to compromise yourself in order to avoid being lonely. Try to be yourself, not what others would like you to be. You have an innate desire to be in refined and elegant surroundings and will go out of your way to create a plush and comfortable atmosphere around you. You have heightened aesthetic sensibilities and are attracted to music and the arts. Try to avoid using your well-known seductive charm in order to get out of doing what you consider to be dirty work!

Mars is in 28 Degrees Gemini.

Your energies get turned on quickly whenever anything interests you. But you have a very short attention span and it is difficult for you to complete tasks because something else more interesting always seems to be beckoning. You love to debate and argue, usually in a spirit of friendly disagreement. But watch out that you do not get too overly aggressive or antagonistic or others will be quick to take offense where none may have really been intended. You need to be in constant physical motion -- sports or daily exercise is a must for you if you are to feel fit and healthy.

Jupiter is in 12 Degrees Cancer.

You must be emotionally secure in order to grow and develop. You are happiest when your family and community support and nourish you and boost your morale. Whether your childhood experiences of love and emotional dependability were positive or negative will set the tone for your emotional growth and stability as an adult. When you feel at ease with yourself, you are able to offer assistance to those who need a helping hand.

Saturn is in 05 Degrees Capricorn.

Very serious-minded and mature, you have the ability to take on responsibilities and to carry out important duties. You can also be trusted to be extremely practical and thrifty. A good organizer, you are the ideal one to be counted on to take a clearly defined project through to its logical conclusion. An achiever, you pride yourself on your ability to focus your attention totally on some worthy goal and then attain it.

Uranus is in 14 Degrees Aries.

For you, as well as for the rest of your peers, the issue of personal freedom is not just an abstract issue that can be discussed and then forgotten. You feel very deeply the loss or threat of loss of your ability to remain unrestricted and independent. And you will react vigorously and vociferously to defend your right of self-expression, no matter what the cost

Neptune is in 03 Degrees Virgo.

You, and your entire generation, idealize work, duty and responsibility. You tend to be very fearful of anything that would force you out of the protective shell of your everyday routines. You place a high premium on personal pride in productivity and craftsmanship. But in your search for perfection in minor details, you sometimes lose track of the overall purpose of life.

Pluto is in 20 Degrees Cancer.

For your entire generation, this is a period of profound global changes, especially in the nature and shape of family structures. In one such period, in the Twentieth Century, major calamities such as depression and world war accelerated the replacement of the old village-oriented extended family by modern cosmopolitan living.

N. Node is in 24 Degrees Aries.

You're at your most comfortable when involved in group activities outside of your immediate family circle. You delight in getting involved with others in neighborhood civic or political activities, especially if you can be a part of the leadership of the group. Your zeal and overabundant energy bring out your real creativity when you can work toward tangible results -- things that will immediately benefit those around you. You have a real gift for getting the most out of charity drives and community benefits. Take time out between projects though, because you tire out easily and your effectiveness becomes greatly diminished when your energy is depleted. Also, don't even think of trying to get involved at a peripheral level -- you need a total commitment to feel personally fulfilled. Let others bake the cookies and set up the chairs -- you should be the one to tell everyone what to do and when to do it!
